Hi Richard,

We would love the stage delivered between 10:00 and 11:00 AM.
We need it all set up by Noon.

Also, my cell number is [310-408-4243](tel:310-408-4243).

If you have that dimension you were going to resend that would be helpful.

Thanks again for coming out today.

All the best,
Gianine

Good Morning Michael,

Per the email below, I believe we are covered with the grommets and the velcro.
The Quote is approved to proceed. What else do you need from me to start the job.

Please advise.

Thanks,
Gianine

Hello Gianine

You can go with either, but you will need velcro strips with adhesive for the back wall to hold it up. I suggest the plastic adhesive hang tabs with tie straps, normally use for hanging banners. the banner will need the metal round rings, that normally come on the banner. Please see picture of tab attachment , you can find them at Home depot.

Hi Kris,

We are getting our banner printed up for the city stage. Do you recommend male and female velcro to be attached to the back of the banner and then attached to the stage?

Please advise. We want to make sure we are prepared and produce the banner with proper fasteners for the stage.

Per the email above I am a bit confused on the recommended form of attachment.

Thanks in advance.

Hi Kris,

Hope you are doing well.

We will be utilizing the city mobile stage for LA Fleet Week.

Can you please advise the dimensions for the back of the stage?

The portion that acts as a wall behind the performers? We would like to produce a banner that hangs behind the performers while on stage.

I am looking for most accurate height, width, and best way to attach this to the stage awning.

Please advise as soon as possible.

Thanks in advance.

Gianine Rizzi
